DEPUTY MARSHAL A RIVER ENGINEER

Wade Brown Permitted to Double Employment.

Monte Inner, Which Was Tied Up,
Is Released and Case Continu-
ed a Month.

FOR THREE HUNDRED DOLLARS

Wade Brown, deputy United States marshal, was this morning given a permit by United States Marshal Long to work on the river, and it is probably the first instance when a deputy United States marshal is accorded the privilege of "doubleing."

"Business has been dull with me during the past several months, and I wrote to Louisville and informed my superior that I would have to resign to go on the river and make a living," Marshal Brown declared, "I have had but one or two summons to serve in weeks and can not make anything out of the office as it now stands. This morning I received permission to go on the river again, being compelled to attend to the government business when demanded. I consider it a great favor and will not resign now that I have been given this privilege."

Boat Released.
This morning the Monte Inner was released from the attachment placed on her by Capt. Thomas Hawkins, who alleges he has \$397 coming to him for wages as pilot. Marshal Brown tied the boat up yesterday and the case has been continued until the regular term of court in September. The boat was made this morning and the boat is now running unhindered.

PRESUMES SALARY TO TOWN.

Mayor of Central City Does the Generous Thing.

Central City, Ky., August 11.—The city council at its regular meeting this morning passed an ordinance prohibiting the running of stock at large upon the streets of Central City, another evidence of the fact that Central City is up with the times. Mayor W. D. McElhinny drew his salary for the entire time that he has been mayor and presented it to the town for the purpose of purchasing new furniture for the city hall. This generous act on the part of the mayor is appreciated by every citizen of Central City.

MT. BAKER EXHIBITS

Volcanic Activity in the Form of Steam.

Bellingham, Wash., Aug. 11.—A remarkable exhibition of volcanic activity in the form of steam issuing with a roaring sound from numerous vents and many pools of boiling water have been discovered on the northeast slope of Mount Baker over an area of several acres. In the midst of a glacier, steam issues from thousands of vents and boiling water is plentiful.

SULTAN TAKEN ILL.

Turkey's Ruler Must Go Under the Knife.

Vienna, Aug. 11.—According to an inexpressible received from Constantinople the sultan's indisposition has made necessary the cancelling of today's school. It is reported that the sultan must undergo an operation and it is even declared that he already has done so. This news of the sultan's ill-health has awakened deep interest here.

Six Rebate Indictments.

New York, Aug. 11.—As a result of investigations of cases of alleged rebating by railroads, the United States grand jury today returned six indictments. They are said to be based on rebating on sugar. The federal authorities declined to give out the names of those indicted, but it was reported that they include both individuals and corporations. United States District Attorney Stimson stated that the grand jury will resume its investigations of the rebate matter about September 1.

Twenty-Two Indictments.

Jamestown, N. Y., Aug. 11.—The federal grand jury for the western district of New York today reported indictments against the Standard Oil company, the New York and Pennsylvania railroads and the Vacuum Oil company which has refineries at Olean and Rochester, N. Y.

By the consent of the people of Paducah, The Sun has the largest circulation in the city and county. The average for July was 4132 a day.

POLITE POLICEMEN

Do Not Disturb Gamblers Nor Cause Annoyance.

Cincinnati, O., August 11.—With Parisian politeness, Lieutenants Mosbacher and Martin raided a poker establishment in Covington this morning at 1 o'clock. James Nolan, the manager, was told his guests need not trouble to come to the police of flee nor to court. Nolan gave fictitious names for six of the players, who were Cincinnatians, save one, who was a congressman from a back Ohio district. Later in the day Nolan appeared in police court and answered guilty for each of the accused and paid their fines of \$5 and costs. His own fine as operator was \$25 and costs. A Louisville gambler has established roulette, poker and craps in the "White House," immediately across from the city hall. This was exposed yesterday by local papers, but the police did not molest him.

DELINQUENTS

NOW IN HANDS OF CITY SOLICITOR CAMPBELL.

Not More Than Four Per Cent Remains to be Collected With One-Tenth Collectable.

Delinquent tax bills for 1905 are now in the hands of City Solicitor Campbell for collection. They were turned over to him this morning, with the injunction of the general council to "get busy" and press the claims. Not more than four per cent of the bills are delinquent, a remarkable showing even for this city, and Treasurer Dorlan and Auditor Kirkland have made an unusual record. In the other second class cities ninety per cent of collections is considered excellent. Five per cent is the average for Paducah.

Ten big tax books, fully a foot thick, were stacked in the treasurer's office when the assessment was completed, but of the ten only one book is left, and perhaps one-third of the bills in it are uncollectable.

Mob Leader Convicted.

Charlotte, N. C., Aug. 11.—George Hall was convicted of conspiracy in connection with the lynching at Salisbury of the three negro murderers of the Lively family, and sentenced to fifteen years in the penitentiary.

PLOT

TO STIR UP WAR BETWEEN MEXICO AND UNITED STATES.

San Francisco Paper Says Mine Owners and Capitalists Are Behind It.

San Francisco, August 11.—The Call publishes a sensational story to the effect that the recent disturbances and report of an anti-American outbreak on the Mexican border are due to a gigantic plot to stir up war between Mexico and the United States. The Call claims capitalists and mining companies are interested in the plot.

NEW LEAGUE

To Be Organized With Hopkinsville as a Member.

Bowling Green, Ky., Aug. 11.—There is a movement on foot to form a Bluegrass League, composed of the Bowling Green, Springfield, Hopkinsville, Henderson, Reels and Glenwood, of Louisville, ball teams. These teams play class D ball and should furnish a fast league.

KID HERMAN WINS

In the Glove Bout With Benny Yanger in Tenth Round.

Indianapolis, Ind., August 11.—Kid Herman, of Chicago, was given the decision over Benny Yanger in a glove contest last night at the end of the tenth round.

WOUNDED HUNTER TO LOSE HIS LEG

"Rasty" La Gore Victim of Unfortunate Accident.

Discharge of Weapon in Tennessee Woods Takes Effect in His Leg.

BROTHER CALLED TO RESIDE.

"Rasty" La Gore, a well known resident of this county and a brother to Mr. Jesse E. La Gore, traveling salesman for the Baker-Reels Wholesale Grocery company, today suffered the amputation of a leg because of a gunshot wound accidentally inflicted yesterday afternoon.

Meager details of the accident reached Paducah. The injured man lives in this county and is visiting in the country a short distance north of Paris, Tenn. Yesterday afternoon while hunting, it is presumed, he was shot. Friends at Paris tried to get Mr. Jesse La Gore at Paducah over the N. C. & St. L. wires, but were unsuccessful, and this morning a telegram was received by the brother announcing that the leg would have to be amputated. At the same time another telegram was sent to Dr. B. A. Washburn to come down and assist in the operation. Dr. Washburn left and the leg will be amputated today.

The young man is well known here and his many friends will be shocked to learn of the accident.

"Potted Chicken" Is Voil.

Columbus, O., Aug. 11.—Reports of the analysis of about fifty samples of potted ham, potted chicken, hamburger steak and luncheon sausage and similar preparations sold by meat packers, submitted to State Dairy and Food Commissioner Ankeny today show the presence of preservatives and in some instances traces of tin and zinc poison. The latter are attributed to the use of a piece of galvanized tin. One sample labeled "potted chicken" was found to be voal.

CLARENCE QUIGLEY

SUFFERING TO A COMPLICATION OF DISEASES.

Had Been in Ill Health Six Months Prior to His Death This Morning.

Mr. Clarence Quigley, son of Mr. and Mrs. Q. Q. Quigley, died this morning at 6 o'clock at the Illinois Central hospital from a complication of diseases. Mr. Quigley was 45 years old and the last surviving son of his parents, Mr. George Langstaff, Jr., is a sister.

For the last several years Mr. Quigley had lived quietly at the country place of his parents in Arcadia, not engaging in business. At one time he was in the real estate firm of House & Quigley. He has never married and had been an invalid for six months.

The funeral has been arranged to take place from the Episcopal church Sunday afternoon at 4 o'clock.

ANOTHER DEATH

Laid at Door of Defaulting Chicago Bank President.

Chicago, Ill., August 11.—Frank Kowalski, paying teller of the Milwaukee Avenue State bank, of which Paul Stensland was president, shot and killed himself this evening at his home, 310 North Carpenter street.

No charges had been brought against him in connection with the failure of the bank, but criticism by neighbors and life-long friends who accused him of a share in the downfall of the bank is believed to have driven Kowalski to his death.

WITHOUT BOND.

On the Charge of Murder Is Man Who Assaulted Sweetheart Held.

Kansas City, Mo., Aug. 11.—Albert M. Crona, charged with killing his former sweetheart, Miss Bertha Howlin, in this city last month was held on a charge of first degree murder without bail at his preliminary hearing today. Miss Howlin died as the result of a brutal assault made upon her and her escort, Frank Kern, late at night on Kersey Coates terrace.

BEAUTIFUL PLAINTIFF

Passes Through Paducah on Way to Chicago.

Miss Anna Walker, the beautiful girl who was awarded a verdict of damages for breach of promise of \$21,000 from D. A. Edwards at Fulton City, Tenn., passed through Paducah today on her way to Chicago. Although the judge set the verdict aside on the ground of excessive damages, Miss Walker is confident she will be successful in the end.

Sultan May Be Dying.

Constantinople, Aug. 11.—Persistent rumors are current today that Sultan Abdul Hamid is dying. No official bulletin is in regard to his condition is issued.

SLIGHT PADUCAH ON CHICAGO TRIP

Pullman Tickets Purchased at Cairo Help That Town.

Most of the Travel Is Out of Paducah But Illinois Town Gets Credit.

REASON FOR THE MOVEMENT

Sleeping car accommodations from Paducah to Chicago is the demand of Paducah business men, who will make a concerted effort to compel recognition of local passenger traffic from the Illinois Central railroad.

The practice is for Paducah people, wishing to take the night ride to Chicago, to purchase sleeping car tickets to Cairo for a quarter and there get their through tickets to Chicago. This practice gives Cairo credit for all the travel while, as a matter of fact, Paducah travel to Chicago is heavier than that from the river town.

As an example last night nine Paducahans came from Chicago. They secured sleeping car tickets from Chicago to Cairo and from there to Paducah. Nine tickets that should have been credited to the Paducah traffic went to swell the business between Cairo and the metropolis of the plains.

Sleeping car tickets can be purchased from Paducah to Chicago, saving the 25 cents extra to Paducah, if the passenger insists on the accommodation, and he will be provided with a slip by the local ticket agent.

"It may be a little thing aside from the extra cost," said one wide-awake Paducahan, "but here we are buying tickets and swelling the passenger traffic between Cairo and Chicago, and at the same time belittling Paducah's business. Cairo can secure concessions from the road by reason of this travel, while Paducah will continue throwing away every chance she has by playing into the hands of the Illinois town. All Paducahans going to Chicago should insist on getting their Pullman ticket here, and in this way boosting the city."

ALDERMEN

PASS WASHINGTON STREET IMPROVEMENT MEASURE.

Committee Must Wait Two Weeks Before Considering Proposed Ordinance.

The board of aldermen met last night in called session and gave second passage to the ordinance, providing for improving Washington street from First street to Third streets. This matter threatened to delay other public improvement work unless the boards acted at once. The lower board will be called in special session for the purpose of passing this improvement ordinance. No other business was transacted.

The board of councilmen will not be able to pass the ordinance on its second reading for two weeks under the charter. The regular meeting is on August 20, but this will be too early and a special session will be held the same week.

According to the ordinance passed by the upper board the paving does not extend between property lines, only between the curbs. The aldermen passed it on the first reading, then adjourned to meet again to pass the ordinance on its final reading.

BURNING REFUSE MENACE TO PLANT

Gas and Transfer Companies Are Threatened

Accumulation of Years Thrown in Combustible Heap in Rear of Building.

DISCOVERED JUST IN TIME.

An ordinary pile of trash, consisting principally of refuse paper and combustible debris from the business houses, yesterday developed to be a menace to the Paducah Gas and Fuel company's plant at the Paducah Transfer company's stable Second and Monroe streets. The fact that the fire department arrived just in time and extinguished a blaze which originated in the mass of combustible refuse matter, doubtless saved the gas plant from serious damage.

The trash is stored ten or fifteen feet deep in the rear of the gas plant. It has been accumulating for several years. No one had taken notice and the city permitted it. The trash pile caught fire last evening about 7 o'clock and was burning briskly when the firemen arrived.

The tar drain running from the big reservoir in which the gas is stored, ran within ten feet of where the blaze originated, and the fact that we extinguished the fire before the blaze reached the tar drain undoubtedly saved the gas plant from damage. Captain Joe Collins, of company No. 1, declared this morning. "Had the blaze reached the tar it would have gone up to the reservoir and an explosion might have followed. Again the fire was in a good way to spread to the Paducah Transfer company's stables, and I consider the trash pile a menace to the safety of that section of the city, and believe the city should have it removed."

No one knows how the fire originated. It had gained some little headway when discovered.

OLD HOUSE

BESIDE KENTUCKY THEATER IS BEING TORN AWAY.

Hotel and Theater Management Will Improve Lot Until It Is Used Again.

For no other reason than to improve the appearance of the hotel and theater, the old Holston house between the Palmer and the Kentucky theater, is being torn down, the work having begun yesterday. This house had been used as offices for many years and might have been so used in the future, but the hotel company will improve it probably making a small park of it. Whenever the patronage of the hotel demands it an annex will be built to the Palmer extending over the space occupied by this house and the lobby of the Kentucky.

SQUARE DEAL FOR ALL.

Secretary Wilson Assures Cattle Men of This.

Chicago, Ill., August 11.—Cattle raisers of the west met Secretary of Agriculture Wilson at the Auditorium hotel today and asked for a "square deal."

Wilson assured them, as well as the representatives of the packers who came into the conference later, that a "square deal" was exactly what the government intended to give every branch of the meat industry in this country and at the conclusion of the meeting expressions of the utmost satisfaction were voiced by all interests concerned.

ALLEGED LETTER

To Old Sweetheart From His Wife Is Published.

Fulton, Ky., Aug. 11.—C. G. Parker, a young business man of this city who married Miss Rosa Thomas, a Fulton girl, three months ago, created a sensation by causing to be published in the local paper a love letter from his young wife to her old sweetheart alleged to have been written by her a few days ago. Before the publication of the article he had closed his place of business and departed for parts unknown, after making threats to kill both his wife and the alleged lover.

Fair and cooler tonight and Sunday. The highest temperature reached yesterday was 92 and the lowest reached today was 72.

NEWSPAPERS CHANGE HANDS.

Both Hreckeridge County Newspapers Make Shifts.

Cloverport, Ky., August 11.—The Hreckeridge Democrat, published at Hardinsburg, with Joel H. Pile as editor and Morris Rourd, business manager, has changed hands and will be issued under the new management next Tuesday. W. R. Moorman has assumed the proprietorship with his sons, Henry DeHaven Moorman, judge of Hreckeridge county, editor, and Roy Moorman, business manager.

Attorney V. G. Habbage, one of the proprietors of the Hreckeridge News, which is published at this place, has sold out his interest in the paper. John D. Habbage, the editor, has taken into the business his sons E. C. and John D. Habbage, Jr., and the firm name under which the News will be published will be known as Habbage & Sons Publishing company.

HOAX

IS ENDLESS CHAIN OF PRAYER, SAYS BISHOP LAWRENCE.

He Did Not Start It and Attributes It to Some Jocular Person or Joker.

Boston, Aug. 11.—So much annoyance has been caused to the Rt. Rev. William Lawrence, Episcopal Bishop of Massachusetts, by the flood of letters which has been pouring in for several months regarding the so-called "endless chain of prayer," which was alleged to have been started by him, that the bishop has found it necessary to issue the following denial that he is connected with the matter.

"The endless chain of prayer said to have been written by Bishop Lawrence is a hoax," Bishop Lawrence, of Massachusetts, never wrote it and knows nothing about it. It is the work of some demented or mischievous person."

Reception to Root.

Montevideo, Aug. 11.—Secretary Root arrived here today on the cruiser Charleston. Never perhaps in history of the Uruguayan republic has popular feeling been more visibly manifested than by the really remarkable demonstrations of satisfaction on the part of all classes with the visit of the eminent American statesman.

TUBERCULOSIS

LOOKS IN CITY HOSPITAL IN LOUISVILLE SAYS DOCTOR.

Too Many Patients Go There With Other Diseases and Contract Plague.

Louisville, Aug. 11.—Testifying for the defense in the city hospital investigation, Dr. Boggs, said after 16 years experience he believed the hospital is the chief focus for consumption in Louisville. Too many patients, who went there with other diseases, contracted tuberculosis and died, he said.

WILL TRY CHINESE

As Diggers of the Ditch Will the Panama Canal Commission.

Washington, August 11.—Chinese labor will be given a thorough test on the Panama canal. Contracts for 2,500 Chinamen for canal work have been prepared and an advertisement is to be issued by the canal commission in a few days asking for proposals from labor agents.

TWINS WERE LEFT

On Different Doorsteps of Neighboring Homes.

Cumberland, Md., Aug. 11.—Two foundlings were left on doorsteps of neighboring homes in Cumberland. The children are evidently twins, a boy and a girl about three weeks old.

ON PLEA OF BOYS FATHER RELEASED

Drunken Blind Man in Police Court Again.

Two Little Chaps Without Home or a Mother Travel Around With the Muslin.

TIED UP LIFE THEY LEAD.

If J. L. Cotner, a blind man, gets drunk again he will lose his two sons, Walter and Robert Cotner, 12 and 9 years of age respectively, and this fact was assured when Police Judge Puryear read the "riot act" to Cotner in police court this morning. Cotner is blind and his sons take care of him. He spends his collections, the charity of the public, for drink, principally, and his sons are neglected. Still they stick to him although they have grown tired of his conduct.

"Yes, papa gets drunk often; every day, we might say," the boys chorused, while waiting for the judge to release their father. "We were born in Hope, Ind., and have been away from home since we can remember. Our mother died two years ago. She was blind, and we took care of both mother and father until mother died. Since then we have traveled about with father and he is drunk all the time. Some times we do not get any bed for the night but father never let us go hungry. He sings and plays and generally collects enough to keep us going."

"We are tired of traveling about and would like to get home to Hope, Ind. We have had two years' schooling in Indiana, and would like to go again," they continued. "We have tried papa time and time again and he will not stop drinking."

"I told Cotner that if he got drunk again I would use my personal influence in getting the boys away from him," Police Judge E. H. Puryear declared. "This makes the second time he has been in court for drunkenness since he returned to Paducah, and I am told he has been in court previously. I think the boys ought to be given a chance to educate themselves, but as long as the father does right he may keep them—that is while he stays here."

The boys stated that they did not want to go into the Home of the Friendless or any public institution, but desired to return to Hope, Ind. They are willing to try it once again with their father and Judge Puryear released him this morning. Cotner promised not to ever drink again.

OTHERS IMPLICATED.

President of Looting Bank Not Alone in His Forgeries.

Chicago, Aug. 11.—Theories that Paul O. Stensland was alone as the forger of millions of dollars' worth of crooked notes in the looted Milwaukee Avenue bank were smashed early this morning. At least three other men in addition to the fugitive president are thought to have been engaged in the production of the alleged bogus signatures. Cashier Herling the authorities believe, had much to do with the issuance of a half million of the crooked paper. They say Herling fell into Stensland's grip five years ago, when he had alleged knowledge of the theft of \$50,000 by the teller in the savings department.

GANS AND NELSON

Sign Articles to Fight at Goldfield on Labor Day.

Goldfield, Nev., Aug. 11.—Joe Gans and Billy Nolan, manager for Battling Nelson, signed articles last night for the Nelson-Gans fight in this city on Labor Day. Gans agreed to accept \$10,000 as his share of the purse under the following agreement: Straight Marquis of Queensberry rules to a finish. At weight agreed upon, 133 pounds, weigh in at 3 o'clock. Purse to be cut so that Nelson will get \$20,000, win or lose. Gans to get \$10,000, win or lose.

DICKHANDS WIN.

Five Dollar Inverse and Arbitration Proposed.

New York, Aug. 11.—Striking deck hands and tug boatmen have practically won. The freight blockade in the Jersey shoe railroads was broken today. The roads agreed to give the men half of the \$10 demanded on an increase and submit the remainder to arbitration.

Ten hits made by five Paducah players, and one hit in each player's square counting for two bags, is the story of how the goods were unloaded on Holycross yesterday afternoon at Wallace park. The "iron man" did not have any rusty wing by any means, but the Indians had mighty Big Sticks, and they used them. It was Ladies' Day and there was a little better showing in the grand stand. The game started off well, and the Indians showed their superiority from the minute "Red" Perry began running around the infield "killing" hits.

Perry has been "sid up with a broken finger and got into the game yesterday after a lay off of several series. He showed up fast and it did the fans good to see the regular line-up once again.

The Indians scored in the first, third and eighth innings. In the first Taylor grounded out and Perry hit to deep left garden for two sacks. Quigley flied out to the infield and Cooper's double scored Quigley. Wetzell's ground out retired the side. One run.

In the third inning Perry singled and Quigley doubled, forcing Perry to third. Cooper struck out and Ott whipped Perry out at third while the short stop was playing off too far. At this juncture Wetzell doubled and scored Quigley. One run.

In the eighth inning the last tally was easy. Cooper singled and Wetzell sacrificed. Haas' double scored the runner and the next two went out in order. One run.

The visitors tallied a run in the seventh inning. Johnson grounded out and Craig doubled. Selby grounded out and Ott was hit by the pitched ball. Holycross' single scored Craig and after that Fleming grounded out. One run.

Clair, the Danville shortstop knocked a ball over the club house.

but it went foul. It was one of the hardest hit balls ever seen on this diamond.

Twenty-three for Calro.

Calro, Ill., Aug. 11.—It was a case of "skiddoo" for Calro yesterday when the "Champs" arrived. What made the fans particularly sore was the poor fielding of the local team. Johnson pitched winning ball, and as fast as he threw them over the locals would show up slow on their feet.

The locals appeared as though they were paralyzed.

The score: It H E
Vincennes 3 4 1
Calro 1 7 6
Batteries—Whitler and Matteson; Johnson and Quiser.

Hostlers Lose Again.

Mattoon, Ill., Aug. 11.—The locals lost to Jacksonville yesterday through inferior hitting. Fox was in good trim and allowed fewer scattered hits than Dowell.

The score: R H E
Jacksonville 8 13 3
Mattoon 6 7 4
Batteries—Fox and Belt; Dowell and Langdon.

Dope.

"Red" Perry ran all around the infield yesterday afternoon and the fans were glad to see him back again. He has a bad finger, but Perry's injury did not interfere with his playing. He threw and drew them in like old times.

The Indians have lost but two games in the last three series. That's going some.

Holycross was "easy picking" for the Indians yesterday. The "iron man" did not have his usual hinders or else the Indians had the Big Stick well under control.

Baseball in Arkansas.

Judge A. R. Grace, of Pine Bluff, who was always interested in baseball when Pine Bluff was a member of the Cotton States Baseball league, probably established a precedent when he adjourned court here while listening to the argument of an attorney in an important case. "The court dislikes very much to interrupt the attorney," explained Judge Grace in apologetic tone, "but the court has just been informed that the Frisco Point baseball

team has arrived on the steamer Kate Adams to play with the Arkansas City team. The court has been requested to umpire and cannot refuse a request of this kind. The court now stands adjourned until after the ball game."

JOLLY LOOKING CHICKS.

Good opera is always appreciated. The "Beggar Prince Opera Company" has for the past twelve years played the principal cities. Each opera presented is correctly staged and finely costumed, with special scenery and electrical effects. The chorus is composed of a bevy of pretty girls that can both sing and dance. The principals are all artists of reputation. This company will be at Wallace park the week of August 13.

The repertoire for week of August 13-20 is:
Monday, Beggar Prince; Tuesday, Olive; Wednesday, Gypsy-Gypsy; Thursday, Chimes of Normandy; Friday, Beggar Prince; Saturday, Olive.

Home Club Scheme Off.

The Roosevelt Home club, which was organized to purchase the president's birthplace, has abandoned the plan, which did not meet the president's approbation.

Love and Death.

Love and Death once ceased their strife
At the Tavern of Man's Life,
Called for wine and threw, alas
Each his quiver on the grass.
When the bout was o'er they found
Mingled arrows strewed the ground:
Hastily they gathered then
Each the loves and lives of men,
Ah! the fateful dawn dived—
Mingled arrows one sheaved!
Death's dread armory was stored
With the shafts he most abhorred.
Love's light quiver groined beneath
Venom-headed darts of death!
Save ye maidens! This is why
Old men love while young men die.
—Rudyard Kipling.

Magazine Club.

With the motto, "I read, I rest," the Magazine club has something of the American spirit of action. And studying as they do, the current magazines of the month, which today are read and tomorrow are cast aside, the idea we get from a study of character manifestation through this club, is one of complete absorption in the present.

American magazines, as typically as anything in our national life, deal with neither yesterday nor tomorrow, but today. While a complete absorption in the present ordinarily prevents our seeing facts in perspective and in their relation to other facts, this objection cannot be charged in any great extent to the magazines. The men and women at work producing them are among the cultured elite of this country and they bring to their work an exhaustive knowledge of facts with ripe judgment.

To read a magazine with the object of being amused or merely to get the ideas it contains, which is a very method is the prevailing one with the majority of readers, is one thing, but to read a magazine critically, to note its style, analyze its thought, criticize its execution and to report it after careful preparation, is quite another thing. This the Magazine club attempts to do.

The high order of work done by this club is indicated by the magazines reported from which include North American Review, probably the dean of American magazines, Harper's, Atlantic Monthly, The Outlook, Hubbard's Journeys, Literary Digest, Scribner's, which, with Harper's and Century, maintain the highest order of work in their class. Cosmopolitan, Bookman, Booklover and Everybody's.

The chief advantage of any club with serious aims, is the resulting cultivation which comes from mingling with educated and cultured persons, and this is as true in literature as in actual life.

If the best magazines are selected, and they have been by this club, few more profitable companionships could be formed. In their aims our magazines are elevated. In the execution of their aims the highest ability in contemporary letters is employed. A club formed to assimilate the best in almost faultless production certainly may be said to manifest unusual character.

At Cards.

For the pleasure of her visiting sister, Mrs. Adah Van Pell, of Oakland, Cal., Mrs. William Marlow entertained Tuesday morning at cards, at her home on Kentucky avenue.

Golden Rod, the state flower of California, with green was the color scheme carried out in the decoration.

Four tables were arranged for the players and the first prize was received by Mrs. John K. Hendrick. It was a silk work-bag. Mrs. Henry Thompson received the second prize, a Japanese button box.

In the morning a two-course luncheon was served. The service carried out the color scheme of golden rod and green.

Among those invited were: Mesdames Adah Van Pell, Laura Fowler, J. K. Hendrick, Victor Wells, Edward Myers, Henry Thompson, A. H. Sowell, E. G. Hoone, James Wheeler, H. G. Terrell, O. L. Gregory, I. D. Wilcox, Emma, R. H. Phillips, May Henson Ricker, Hubbard Wells, A. P. Meyers, H. Powell and Miss Anna Webb.

Lawn Party.

For the little folks a delightful lawn party was given Tuesday evening by Miss Emma Greer and Miss Ellen Ratcliffe at their home on West Broadway. The young people danced and played games, spending an unusually pleasant evening. Refreshments were served in which the color scheme of pink and white was carried out. The party included Misses Edith Cope, Juliet Thompson, Emma Greer, Ellen Ratcliffe, Mary Burnett, Martha Cope, Mary Clark, Gladys Coblurn, Neta McPadden, of St. Louis; Cora Robertson, Lizzie Burnett, Grace Holland, Mary Bernhard, Pearl Holmes, Mary Bailey and Mesdames Robert Kirkland, Robert Hicks, John Campbell, Walter Hicks, Sennott Meyers, Lawrence Powell,

Linn Boyd, Wayne Rye, Phillip Halley, Warren Gilbert, Richard Gilbert and Nelson Broadfoot.

Indoor Party.

At her home Tuesday evening Miss Gene Morris entertained with a party in substitute to an announced house party, threatening weather causing the change in plans. A birthday cake was cut and the various souvenirs hidden in the cake were found by the guests. Miss Elizabeth Schree received the needle, Miss Henri Alcott the ring, Miss Elsie Hodge the dime, Mr. Will Rudy the boy's ring, Mr. Guy Martin the shoe and Mr. Clay Kidd the button. Among those present who were invited were: Mesdames Henri Alcott, Elizabeth Schree, Elsie Hodge, Amanda Long, Dorothy Langstaff, Lucia Powell, Eva Bauer, Carrie Truheart and Mary Cave; Messrs. Clay Kidd, Zach Hayes, Will Rudy, Milton Walenstein, Harry Singleton, Charles Truheart and James Wheeler.

James Dunn.

Formal announcement is made today of the engagement of Miss Ruth Jones and Mr. F. Earl Dunn, the wedding to be quietly celebrated on the evening of Tuesday, August 21, at the home of the bride, Ninth and Jackson streets. The marriage of the two young people will be an event of cordial interest to the many family and personal friends. The bride-elect is a pretty brunette and a bright and accomplished girl. Her fiancé is a Paducah boy, who has been connected with leading drug stores and recently acquired one of the best pharmacies in the city. The marriage is the culmination of a long courtship and the young people have the best wishes of a host of friends. The wedding will be a quiet one with only the relatives and close friends present. The Rev. T. J. Newell will officiate.

Surprise Party.

One of the most enjoyable parties of the week was given Miss Elsie Blunt by a number of her friends at her home on Jackson street Thursday evening in honor of her birthday. The evening was happily spent with games and other amusements. In the games Miss Nellie Voight won the girls' prize and Mr. Henry Kopf the boys' prize. Delightful refreshments were served from a prettily decorated table. Those present were: Mesdames Katie Bauer, Fannie Langman, Nellie Voight, Edna Knowles and Minnie Voight, and Messrs. Henry Kopf, Raymond Cashon, Joe Girk, Karl Knowles, Roscoe Wise, Robbie Reynolds and Victor Knowles.

For Miss Rohr.

The guest of Miss Emma Reitz, Miss Flora Rohr, was the guest of honor at a party given Tuesday evening by Miss Blanche Street at her home on South Sixth street. It was an indoor party, the gentlemen weather making a lawn party unpleasant. Refreshments were served in the evening. The guests were: Mesdames Emma Reitz, Flora Rohr, Jeanette Peller, Leah Rogers, Kate Bauer, Mire Caldwell, Inez Trent and Messrs. Frank Donovan, Roy Prayther, Arnold and Robert Palmer, John Cullins, Will Baker and Sutton and DeWolfe.

At White Haven.

For the pleasure of her house guest, Miss Myrtle Greer, Miss Elizabeth Atkins entertained a small number of her friends Tuesday with a porch party. The evening was an enjoyable one to those present, who included Mesdames Sue Thompson, Helen Becker, Elizabeth Sinnott, Ethel Brooks, Belle Cave, Martha Davis, Myrtle Greer and Messrs. Crouse, Hancock, Frank Davis, Rollie Graham, George Thompson, Edward Hinghurst and George Dulliois.

Cairo Party.

Mrs. Bertie Campbell and Mrs. M. G. Cape chartered a party of young people to Cairo this morning on the steamer Dick Fowler. They went for the pleasure of the round trip on the river. The party included: Misses Gladys Coblurn, Martha Cope, Elizabeth Terrell, Helen Van Meter and Mesdames John Campbell, Lillian Burnett, Linn Boyd, Fowler Post, and Horace Terrell.

Guessing Party.

Given only a clue of identity, the guests were required to guess the familiar advertisements from which the suggestions were taken, at a party given by Miss Olga List Thursday evening in compliment to Miss Adah Hart Miller, of Chicago. Miss Virginia Johnson received the first prize for guessing the largest number correctly, and Mr. Melvin Wallerstein received the gentlemen's prize.

with all the physicians taking turns on the staff. The testimony of one physician, who after sixteen years' observation thinks the hospital is a breeding place for tuberculosis, is worth considering. No doubt the reason so many patients suffering with other diseases contract the "white plague" in the hospital is found in the negligence of the administration; but does not ripened experience advise us that segregation is the most certain preventative of the spread of the disease? Kentucky should have a tuberculosis sanitarium.

At Salisbury, N. C. the leader of a mob of lynchers was convicted and sentenced to 15 years' imprisonment. This incident affords a study in criminology. Lynching has failed utterly to suppress the kind of crime it was designed to check; but we predict that this sentence will have a wonderful deterring effect on the crime of lynching. After all, the law is the best remedy.

According to the disclosures made by nurses and internes before the board of public safety, the inside of the Louisville city hospital must be almost as bad as the inside of a can of embalmed beef.

Tom Watson, of Georgia, has returned to the Democratic party. Tom changes party affiliations whenever the public manifests signs of forgetting his existence, which is quite often.

Will the "cow policeman" be able to enforce the proposed anti-goose ordinance, or will the city be compelled to employ a "goose girl"?

Is the "Alec man of Europe" really sick this time?

TO THE INEVITABLE.

The Jackson Whig bows to the inevitable with resignation:

We want no one to imagine that the defects frequently apparent in the make-up of The Whig are unnoticed by us. We are quite sure that no reader was half so annoyed by the numerous errors in the front page headings of yesterday's paper as were we.

But we shall let them be. Due wholly as they were to an inexperienced printer, we shall assume our part of the blame, and attempt no correction.

A number of years ago, when one of the most prominent attorneys of the Jackson bar was much younger and much more particular as to how his public utterances were received, he had occasion to address the Confederate veterans of this city. During the course of his remarks he frequently alluded to his audience as "the battle-scarred veterans."

On the following day the paper announced that the speaker had feelings referred to them as "the battle-scarred veterans."

Not willing to be quoted as the author of any such slander, Mr. Attorney demanded that the mistake be corrected. Humiliated, the editor in the next issue presented an elaborate apology, saying that "a typographical error made us quote Mr. Attorney as having made reference to the 'battle-scarred veterans,' whereas the type should have read 'bottle-scarred veterans.'"

Fearful of some similar fate we shall attempt no revision of the past. If the printer who controls such destinies wants it to be the "Son of a Brave President," instead of "Son of a Bank President," as we intended, then brave he must be even if the man in question was in hiding from an angry mob.

If the same printer is dissatisfied with the way in which our well-known City Engineer spells his name and declares that henceforth it shall be Lancaster instead of Lancaster then we gracefully bow to the inevitable.

But we again repeat that we are greatly mortified when we do not send forth a paper clean in mechanism, in construction and in thought, for such is certainly our purpose.

BRUISED ANKLE

Not Sufficient to Prevent Patrolman Hurley Working.

Patrolman Aaron Hurley was injured in the left leg this morning while catching a street car for the city, but he is not off duty because of the accident. He saw the early morning train stop suddenly after leaving the station, and left his car and started for the train. It was only a little express matter left behind and the policeman ran to catch his car again. He missed the second stop and his foot went between the first and second boards. His ankle was bruised.

Stab Strikes, Producing a Severe Wound.

Christina, the 8-year-old daughter of G. D. Center, of 423 Clay street, fell out of a tree early this morning and alighted on a stub which stuck in her left leg above the knee. Dr. Horace Rivera found part of the stub had broken off in the wound, which he removed. The little girl had climbed into the tree for the fun of the danger and lost her balance. It was an exceedingly painful injury but she is resting easy now.

ELECTRIC WIRES

Cause Small Blaze in Hotel Building.

Central fire department was called to the Columbia at 10:30 o'clock this morning to extinguish a blaze started by some electrical wires. The insulation on the electric wiring burned off but did no damage other than to blacken the ceiling of the confectionary store. The blaze was put out before the fire department arrived.

Travelers to California

Naturally desire to see the grandest and most impressive scenery en route. This you will do by selecting the Denver & Rio Grande System, "The Scenic Line of the World," in one or both directions, as this line has two separate routes across the Rocky mountains between Denver and Ogden. Tickets reading via this route are available either via its main line through the Royal Gorge, Leadville, over Tennessee Pass, through the Canon of the Grand River and Glenwood Springs, or via the line over the Marshall Pass and through the Black Canon of the Gunnison, thus enabling the traveler to use one of the above routes going and the other returning. Three splendidly equipped fast trains are operated to and from the Pacific Coast which carry through standard sleepers daily between Chicago, St. Louis, Denver and San Francisco. Dining cars (service à la carte) on all through trains. If you contemplate such a trip, let us send you beautifully illustrated pamphlets, free. S. K. Hooper, G. P. & T. A., Denver, Colo.

Hot Days Beneficial.

It is strange we never stop to realize that the hot days are good for us. They are, just as they are good for crops. Nature sends the hot days to give us a good "awakening"—if the use of the vulgar word is permissible for in this way it eliminates some of the poisons from our systems. If we would get out of doors, instead of sitting in the shady nooks, and take two or three hours in the open air with the "hollering sun" boiling us right we would feel lots better, and be lots better.

This is a correct theory, and is the theory that prompted the invention of the hot-air treatment I am giving with such success in my practice. When used in connection with Osteopathy it is a specific for the ailments that give us Paducahans the most trouble, malaria, chills and fever and biliousness, and I can in just a few minutes show anyone suffering of these ailments why they yield so readily to the treatment. I can refer you to people you know who will attest to my statements.

If you feel drowsy, and tired; feel like you had a taut band around your head which was being drawn closer all the time; if you are suffering of indigestion or any form, a course of Osteopathic and dry hot-air treatment will bring a quick cure, and do so without the aid of anything but aids to Nature.

My office hours are from 9 to 12 and from 2 to 5, Dr. G. B. Froese, 518 Broadway, Phone 1407.

A Remarkable Book Offer.

Harbor's Book Department is making probably the greatest offer on new copyrighted fiction, by famous, present day authors before the public today.

In conjunction with a number of book sellers over the country, in which is included the Wannamaker's stores at New York and Philadelphia, the exclusive sales of the works of twelve of the world's best authors are being put out at 50c, instead of the regular price, \$1.50.

The authors are Robert Barr, Amelia Barr, Gertrude Atherton, E. F. Benson, Cutcliffe Hyne, Mary Wilkins, Ina MacLaren, Mrs. Burton Harrison, John Oliver Hobbes, Max Pemberton, Anna Katherine Green, Eden Philpotts.

These books are now on sale at Harbor's Book Department, and from the rush with which the sale started off, Mr. Wilson's statement will easily be absorbed. Read his announcement in today's paper of the books in the lot, and drop in his store some time and see the editions.

Miss Marjory Hudson, who has been visiting Mrs. Aubrey Smith, returned to her home in Bolivar, Tenn., today.

HEAVY INCREASE
IN THE CLEARINGS

Banks Indicate Unprecedented Business Activity.

Local Wholesale and Retail Trade Is Encouraging—Crop Reports Are Optimistic.

MERCHANTS ARE GOING EAST

Bank clearings this week show a big increase over the same time last year. It is accounted for in a measure by the refunding of the Palmer house bond issue, which figured in the business this week. Last year, at this time, too, the yellow fever scare, and resultant depression, was at its height, and affected the business of local banks.

Local wholesale houses report a satisfactory increase in business over last year, in all lines, and collections are fair. The tone of general business, all over the country, is healthy. Late crops reports are that nearly every crop will be full and good prices will obtain. "I never saw crops in a finer condition," is the report of the vice-president of the New York Central railroad, who has just returned from a three thousand mile trip through the western and middle west states. "Corn and wheat are as fine as any year I have records of, and the same can be said of nearly all crops. Unless the unforeseen happens, 1906 will surpass the remarkable record of 1905 by a good margin. Railroads will no doubt show as big an increase in business as at any time in their history."

Reports from the iron and steel business barometers, are of the greatest productions in their history, but consumption away ahead of the supply.

Reports of failures for the first half of the year show fewer business disasters than any year for a decade.

Local retailers are in the midst of their clearance sales, and the general report is of good increases over the same time last year. All anticipate a good fall season.

Many local merchants leave for New York in a few days. Mr. Will Riecke, Mr. Robert Phillips, Mr. Ben Weller, Mr. H. Wallerstein, Mr. Ell Guthrie and Mr. C. W. Thompson go in the next two weeks.

Dun's Weekly Report.

New York, August 11.—The following is Dun's Weekly trade report. Most important developments in the business world this week was the increased activity of the jobbing and wholesale departments in preparing for autumn and winter requirements. Crop reports are all that could be desired, harvest and threshing returns surpassing all but the most sanguine expectations, the few unsatisfactory statements being far outweighed by numerous encouraging results. Mercantile collections might be more prompt at some eastern points, but the average is well maintained by discounted bills at the west and south.

Manufacturing news is still of good progress, the iron and steel industry maintaining phenomenal results, despite some labor troubles.

High prices prevail in footwear industry and for most textile fabrics but the general level of all commodities reflects a cheapening of farm products on account of the big crop. Railway earnings in July were 12 per cent larger than last year and foreign commerce at this point alone for last week shows a gain of \$1,323,204 in exports and \$1,098,874 in imports over the same week in 1905.

Failures this week were 174 in the United States against 222 last year; 13 in Canada as compared with 19 a year ago.

Business at the wharf this week has been good. Strong movements of corn, wheat, tobacco, lumber, peanuts, and general merchandise have given the boats plenty to do. Passenger business also has been good.

In the ship-building lines, a plethora of work argues well for next year and has contributed no small amount in the brisk business at the retail stores, as probably \$1,500 a week is paid out in wages alone, by the dry docks and ways. This week saw the completion of the Natchez at the ways, work a this boat having been under way continuously since May 19. The cost has been between \$25,000 and \$40,000.

The gauge registered a stage of 8.2 this morning, a fall of 0.3 in the last 24 hours. Weather clear.

The Bob Dudley, Gate City and Lyda were inspected yesterday by Government Inspectors MacDonald and Green and all three passed.

The Kentucky will leave this evening at 6 o'clock for the Tennessee river.

The John Hopkins was the regular packet in the Evansville trade today. No Evansville packet Sunday.

The Huttoff will arrive Sunday night from the Cumberland river from Nashville and will leave Monday at noon for Clarksville.

The City of Savannah will leave St. Louis this evening for the Tennessee river, arriving here Monday morning early.

The Dick Fowler left with a fair business this morning and will be due to return tonight at 8 o'clock.

To understand what the river means in a business way to the prosperity of Paducah, it would be necessary to take an inventory of the lines of business, which are here purely because the river is here. It is not merely the boats coming to the city. For boats to come to a city means first of all that boat stores must be run which can supply them with stores. Boat stores consist of more than groceries. Rope, hardware, tools, machinery, fixtures and numerous other appurtenances are handled in this city exclusively for the boats. Then where boats stop there always will be some facilities for repairing them. Paducah has these in a large degree. Many and highly skilled mechanics are employed here. It is not generally known but many have come from the ship yards of England and now work at their trade here. This class of labor is well paid and no other labor outside of some of the railroad employees are paid as much. Another development here is the manufacture of stationary and boat boilers. The boiler repair work on steamboats is large, and that necessitates another element of labor. Lumber used in boat construction is costly and is a good account for the mills here. Then there are numerous attaches about the wharf, such as clerks, stevedores, foremen and the like who find employment. In all its ramifications, if it could be adequately estimated, it would be found that the river is a considerable factor in our business life.

The New Orleans Times-Democrat says: The big towboat Sprague arrived yesterday from Louisville with seven boats and 11 barges, carrying a total of 307,000 bushels of coal consigned to W. G. Willmot, Capt. Crowe, in command of the Sprague, said that the vessel behaved herself well during the entire trip. He stated that the boat will go into the United States naval dry dock for repairs, and as soon as she is repaired will leave for Louisville towing 50 empty barges.

Official Forecasts.
The Ohio from Evansville to Cairo, no material change during the next 24 to 36 hours.

The Tennessee from Florence to below Johnsonville will rise today.

The Mississippi from below St. Louis to Cairo not much change during the next 24 hours.

LIFE INSURANCE IN COMMONWEALTH

Thirty-Six Outside Companies
and Two of Louisville.

Important Tobacco Suit Is Filed in the
Trigg County Court to Enforce
Contract.

MAYFIELD MALITIA COMPANY.

Frankfort, Ky., August 11.—The thirty-sixth annual report of the state department of insurance, volume two, covering fidelity and casualty, life and assessment companies, has been completed under supervision of State Commissioner Henry R. Brewitt.

The Citizens' Life Insurance company of Louisville, Ky., was incorporated in November, 1904, and the Commonwealth Life Insurance company, also of Louisville, Ky., was incorporated in May, 1905.

At the beginning of the year 1905 there were 36 legal reserve life insurance companies of other states doing business in Kentucky.

The total admitted assets of these 36 life insurance companies amounted to \$2,330,450,772.75; liabilities to policyholders, \$2,364,055,463.24; surplus as to policyholders, \$119,394,247.47; income, \$391,033.695.72; disbursements, \$385,588.611.41; excess of income over disbursements, \$205,445,084.31; risks written, \$3,326,361,985; premiums received, \$461,394,483.92; losses and claims paid, \$160,185,657.58; risks in force at the end of the year, \$12,034,746,576; increase in risks in force, \$1,647,376,478.

These 36 companies of other states had in force in the state of Kentucky at the beginning of the year 437,096 policies, insuring \$226,849,031. They issued during the year 154,520 policies, insuring \$53,916,979. There ceased to be in force during the year 111,054 policies, insuring \$41,387,193, leaving in force December 31, 1905, 480,562 policies, insuring \$239,378,817. The premiums received by these companies in Kentucky amounted to \$7,908,871.04, and the losses and claims paid were \$2,982,119.85.

The Commonwealth Life Insurance company, which did business during the last seven months of the year, had in force at the end of the year \$1,307,000 of insurance on the ordinary plan and \$695,197 on the industrial plan.

The Citizens' Life, at the close of the year, had in force \$11,474,200, of which there was in force upon the lives of the citizens of Kentucky, \$7,140,290.

Company Mustered Out.

Mayfield, Ky., August 11.—The local military company has been mustered out by order of Adjutant General Laurence, following the resignation of Capt. J. H. Hoswell and Lieutenant Lewis Hobbs and Chester Byrn.

May Be Foul Play.

Hopkinsville, Ky., August 11.—George W. Palmer, aged 19 years, formerly of Lexington, was found unconscious this morning near the Louisville and Nashville railroad track. There was a great gash in his head, his face was cut and his body bruised. He is at the Hopkinsville sanitarium in a precarious condition. Palmer was a utility man at the Louisville and Nashville station, and last night was guarding stored freight on a new track near town. Two theories, one of foul play and the other that he fell from a car, are advanced.

Corn Solve Fatal.

Greenup, Ky., August 11.—John G. Davis, a prominent farmer of the west end of the county, met death in a peculiar manner. He used a "sauce" corn salve on one of his toes and trimmed the corn with a razor, without first washing the salve off, causing blood poisoning, which resulted in death in three days, after intense suffering. He was about 72 years of age and a soldier in the Confederate army.

Itose Resigns From House.

Frankfort, Ky., August 11.—The resignation of the Hon. Richard S. Itose, of Whitley county, as a member of the lower house of the general assembly, was received at the state executive department today and accepted by Governor Beckham. In his letter resigning, Mr. Itose gives no reason but it is understood at the department that he is about to be elected police judge of Jellico. Mr. Itose was a Republican leader in the house of representatives at the last session.

Investigate Woman's Death.

Hopkinsville, Ky., August 11.—An inquest was held today by the coroner over the body of Mrs. Witt

Berry, who died Monday at her home in Sharpshooter. Testimony was taken to the effect that early last week she gave birth to a child. Three days later, it was stated by witnesses, she had left her bed, and in a quarrel with her husband he struck her. It is alleged, in the stomach with his fist.

Trigg County Suit.

Another suit that is of much importance and interest not only to the citizens of Trigg county, but to everyone throughout the entire dark tobacco district, has been filed in the Trigg circuit court. It is the Dark Tobacco District Planters' Protective association of Kentucky, Tennessee and Virginia against George E. Ladd, E. L. Ladd and E. M. Flack and Frank Dabney, under the firm name of Flack & Dabney, defendants, and is for the sum of \$2,050. Last March George E. and E. L. Ladd sold their 1905 crop of tobacco, which they had previously pledged to the association, to Messrs. Flack and Dabney, at Hopkinsville, but the association authorities filed suit against them to enjoin them from delivering this tobacco to Flack and Dabney, but to force them to sell it through the association as they had previously agreed to do by joining the association.

OUTLAW MAYOR

Prominent Banker Arrested for Being Horse Thief.

Williston, N. D., August 11.—W. W. Denny, mayor of Williston, and a prominent banker, was today convicted on a charge of receiving stolen property. The case is a famous one and has been before the public for about a year. It was charged by the authorities of Valley county, Montana, that Denny was at the head of a band of horse and cattle "rustlers" and that he disposed of his booty surreptitiously acquired by the gang. Two attempts were made to extradite Denny and take him to Montana for trial, but failed. Finally he was brought to trial here on a charge of having received and disposed of horses stolen in Montana.

Notice to Contractors.

Bids will be received at the office of the city engineer, in the city of Paducah, Kentucky, up to 3 o'clock, August 25, 1906, for the construction of about seven (7) miles of combined sanitary and storm water sewers, in the city of Paducah, Kentucky.

Plans and specifications will be on file in the engineer's office, in the city of Paducah, Kentucky, after August 15, 1906. A certified check of \$1,000 must accompany each and every bid.

The city reserves the right to reject any and all bids.

D. A. YEISER, Mayor.
Paducah, Ky., August 4, 1906.

Japan Has Canned Meat Scandal.

Victoria, B. C., August 11.—The steamer Tosa, of the Japanese mail steamship line, arrived today from the Orient, being the second steamer of the line to come in charge of a Japanese commander. The Aiki, which is following, also has a Japanese in charge. The Toga Mami brought news of a Japan canned meat scandal at Hiroshima. It was found that cans labeled "boiled beef" contained horse flesh, which had been prepared in some ingenious manner and could only be identified by careful analysis.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains; no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after over-eating. A corrective like Kodol For Dyspepsia. It digests what you eat. Sold by Lang Bros.

Beckham at Lexington.

Gov. Beckham has announced that he will formally open his senatorial campaign with a speech in Lexington on Wednesday evening, August 15. Subsequently he will announce other appointments.

Why does the sun burn? Why does a mosquito sting? Why do we feel unhappy in the Good Old Summer Time? Answer: we don't. We use Dr. Witt's Witch Hazel Salve, and these little pills don't bother us. Learn to look for the name on the box to get the genuine. Sold by Lang Bros.

Oppose Sullivan.

Democrats of Morgan and Sangamon counties, Illinois, have endorsed W. J. Bryan for president, and demanded the removal of National Committeeman Roger C. Sullivan, of Illinois.

In this state it is not necessary to serve a five day's notice for eviction of a cold. Use the original laxative cough syrup, Kennedy's Laxative Honey and Tar. No opiates. Sold by Lang Bros.

Dr. James Weir Dead.

Dr. James Weir, Jr., physician and author of Owensboro, died yesterday at Virginia Beach, Va.

LOCAL BUSINESS FOR RAILROADS

Unprecedented and is Constantly Increasing.

Public Improvements Underway and Building in Progress Calls for Material.

YARDS ARE BEING EXTENDED.

The Paducah Illinois Central yards are filled with cars and the business being done is unprecedented. It is 40 per cent greater than the business done the same period last year, and is due in a measure directly to the fact that so many improvements are going on in Paducah.

"There is cement, pitch and various other materials to haul for the Paducah street improvements alone," a yard official stated today. "The general improvement going on in the city has swelled the business for the road here to a great extent. Of course, there is a natural increase in business on the Paducah district because of the Nashville division being recently created and this brings more business through. But as to Paducah proper, the railroad business is flourishing and this necessitated improvement now being made in the local yards to facilitate the handling of cars."

More Big Engines.

Because of the fast increasing business on the Louisville division of the Illinois Central and the economy in the use of the biggest class of freight engines the higher officials at Chicago have sent another consignment of 500 class engines to Paducah, and when the yard reach here the Paducah district will be equipped with 37 of the biggest class freight engines on the system.

During the past two days six 800 class freighters have arrived, and there are six more to come. This will swell the total number to 37. The engines have given perfect satisfaction since used on this district and this fact is borne out in the operations of the "dyno-meter" car, which has been working nearly one month on this division testing the pulling powers of the big engines and acquainting the engine men with the characteristics of the road bed in the use of the big machines.

The Dyno-meter Car.

Mr. E. I. Wenger, who is in charge of the dyno-meter car, has finished his work here and will leave in a day or two for his home in Campagna, Ill., to file his report. He is not a railroad employee, but a college student, and was sent out of the University of Illinois for the purpose of completing his course in railroad engineering. This is a special branch the university teaches, and in order to complete the course, the students are taken through the entire operation of the road, from start to finish.

"The instruments on the car belong to the college," Mr. Wenger stated, "but the car is owned by the Illinois Central and was fitted out for our use. The road is benefited by the operation of our car because it gets the true grades and other information relative to the conditions of its road bed and the pulling powers of its engines. I have gone with the car two trips to Louisville from Paducah, but have not made out a report. The division is one of grades, particularly between Paducah and Central City, and trains cannot pull the same tonnage over this district that it can over the Louisville district. We came in the other morning from Princeton with 54 loads and this is quite a big train."

Mr. Wenger further stated that he found engineers on this district the best he had ever come in contact with. They seem to understand every point and take advantage of the least things in order to perfect the movement of the trains. There is more real competition among the engineers on this division than any other on the system. The dyno-meter car is being cleaned up today and will be sent back to Campagna, Ill., tonight or tomorrow.

"As long as I remain, I suppose. There are only the two of us, you know."

"What does he find to do here?" "Oh," laughed Dan, "the thing plenty to do. His energy is something dreadful. Then, too, he's employed at the shops. That keeps him pretty busy, you see."

But Miss Emory hadn't known this before. She elevated her eyebrows in mild surprise. She was not sure she understood.

"I didn't know that he was one of the officers of the road," with deceptive indifference.

"He's not. He's a childmaker," explained the literal Oakley, to whom a childmaker was quite as respectable as any one else. There was a brief pause, while Constance turned this over in her mind. It struck her as very singular that Oakley's father should be one of the hands. Perhaps she credited him with a sensitiveness of which he was entirely innocent.

She rested her chin on her hands and gazed out into the dusty street. "Isn't it infinitely pathetic to think of that poor little man and his work?" going back to Joyce. "Do you know, I could have cried? And his wife's faith, it is sublime, even if it is mistaken." She laughed in a dreamy fashion. "What is to be done for people like that, whose lives are quite unimportant?"

"They were joined by the doctor, who had caught a part of what Constance said and divined the rest.

"You see only this pathos. Joyce is just as well off here as he would be anywhere else, and perhaps a little better. He makes a decent living with his pictures." As he spoke he crossed the porch and stood at her side, with his hand resting affectionately on her shoulder.

"I guess there's a larger justice in the world than we conceive," said Oakley.

"But not to know, to go on blindly doing something that is really very dreadful and never to know?" She turned to Oakley.

"I am afraid I rather agree with your father. He seems happy enough, and he is doing work for which there is no demand."

"Would you be content to live here with no greater opportunity than his?"

Oakley laughed and shook his head. "No, but that's not the same. I'll put the truckleberry up and make it pay and then go in for something bigger."

"And if you can't make it pay?" "I won't bother with it, then."

"But if you don't bother?" "Oakley gave her an incredulous smile.

"That couldn't be possible. I have done all sorts of things but stick in what I found to be undesirable berths, but of course business is not at all the same."

"But isn't it? Look at Mr. Ryder. He says that he is buried here in the pine woods, with no hope of ever getting back into the world, and I am sure he is right, and journalism is certainly a business, like anything else."

Oakley made no response to this. He didn't propose to criticize Ryder; but, all the same, he doubted his ability.

"Griff's frightfully lazy," remarked the doctor. "He prefers to settle down to an effortless sort of an existence rather than make a struggle."

"Don't you think Mr. Ryder extremely clever, Mr. Oakley?"

"I know him so slightly, Miss Emory, but no doubt he is."

Mrs. Emory appeared in the doorway, placid and smiling.

"Constance, you and Mr. Oakley come on in; dinner's ready."

When Dan went home that night he told himself vaguely that he would never go to the Emorys again. The experience had been most unsatisfactory. In spite of Constance's evident disposition toward tolerance where he was concerned, she exasperated him. Her unconscious rancor was a bitter memory of which he could not rid himself. Certainly women must be petty, small souled creatures if she was at all representative of her sex.

Yet in spite of his determination to avoid Constance, even at the risk of seeming rude, he found it required greater strength of will than he possessed to keep away from the Emorys.

He realized in the course of the next few weeks that a new stage in his development had been reached. Inspired by what he felt was a false but beautiful confidence in himself he called off, and as time wore on the frequency of these calls steadily increased. All this while he thought about Miss Emory a great deal and was sorry for her or admired her, according to his mood.

In Constance's attitude toward him there was a certain tenderness that he resented. Sometimes she was friendly and companionable, and then again she seemed to revive all her lingering prejudices and was utterly indifferent to him, and her indifference was the most complete thing of its kind he had ever encountered.

Naturally Dan and Ryder met very frequently, and when they met they clashed. It was not especially pleasant, of course, but Ryder was persistent and Oakley was dogged. Once he started in pursuit of an object he never gave up or owned that he was beaten.

In some form he had accomplished everything he set out to do, and if the results had not always been just what he

had anticipated he had at least had the satisfaction of bringing circumstances under his control. He endured the editor's sarcasms and occasionally retaliated with a vengeance as heavy as to leave Griff quivering with the smart of it.

Miss Emory found it difficult to maintain the peace between them, but she admired Dan's mode of warfare; it was so conclusive, and he showed such grim strength in his ability to look out for himself.

But Dan felt that he must suffer by any comparison with the editor. He had no genius for trifles, but rather a ponderous capacity. He had worked hard, with the single determination to win success. He had the practical man's contempt, born of his satisfied ignorance, for all useless things, and to his mind the useless things were those whose value it was impossible to reckon in dollars and cents.

He had been well content with himself and now he felt that somehow he had lost his bearings. Why was it he had not known before that the mere strenuous climb, the mere earning of a salary, was not all of life? He even felt a smothering envy of Ryder of which he was heartily ashamed.

Men fall in love differently. Some resist and hang back from the inevitable, not being sure of themselves, and some go headlong, never having any doubts. With characteristic singleness of purpose Dan went headlong, but of course he did not know what the trouble was until long after the facts in the case were patent to every one, and Antioch had lost interest in its speculations as to whether the doctor's daughter would take the editor or the general manager, for, as Mrs. Poppleton, the Emorys' nearest neighbor, wisely observed, she was "having her pick."

To Oakley Miss Emory seemed to accumulate dignity and reserve in the exact proportion that he lost them, but he was determined she should like him if she never did more than that.

She was just the least bit afraid of him. She knew he was not deficient in a proper pride and that he possessed plenty of self respect, but for all that he was not very dexterous. It amused her to lead him out and then to draw back and leave him to flounder out of some untenable position she had beguiled him into assuming.

She displayed undeniable skill in these maneuvers, and Dan was by turns savage and penitent. But she never gave him a chance to say what he wanted to say.

Ryder made his appeal to her vanity. It was a strong appeal. He was essentially presentable and companionable. She understood him, and they had much in common, but for all that her heart approved of Oakley. She felt his dominance. She realized that he was direct and simple and strong. Yet in her judgment of him she was not very generous. She could not understand, for instance, how it was that he had been willing to allow his father to go to work in the shops like one of the common hands. It seemed to her to argue such an awful poverty in the way of ideas.

She tried to still her growing liking for Oakley and her unwilling admiration.

"Isn't it infinitely pathetic to think of that poor little man and his work?"

tion for his strength and honesty and a certain native refinement. Inconsciously, perhaps, she had always associated qualities of this sort with position and wealth. She divined his lack of early opportunity and was alive to his many cruelties of speech and manner, and he suffered, as he knew he must suffer, by comparison with the editor, but in spite of this Constance Emory knew deep down in her heart that he possessed solid and substantial merits of his own.

CHILD LABOR LAW MAY BE CONTESTED

Louisville Manufacturers Do Not Like It.

County Judge Rules That He Still May Issue Permits to Children Under Age.

EMPLOYERS TAKE OTHER VIEW.

Louisville manufacturers are concerned over the application of the new child labor law especially under the ruling of County Judge Wilson, of Jefferson county, who insists that the new regulations are merely additional restrictions to the laws already existing. Letters have been received by local manufacturers from Louisville, asking if they would enter into a test suit of the law.

Under the old law permits could be issued by a county judge for children to work in factories, but now no child under the age of fourteen years is permitted to work unless it has no other means of support. The manufacturers have taken this to mean that an affidavit setting forth these requirements is all that is necessary to be presented to the labor inspector, but Judge Wilson insists that "a" has authority to issue permits as before.

As Paducah manufacturers are complying strictly with the law they have no trouble, and, it is understood, they will not participate in the test suit.

PREPARATORY TO GRAVE.

Not Good for Admission to Naval Academy.

Washington, Aug. 11.—Secretary Bonaparte wrote a letter today to an embryo Nebraska inventor which was designed to interrupt some interesting experiments in throwing explosives.

John Sweeney, 17 years old, of Erickson, Neb., wrote the secretary a letter asking for a statement of the requirements for admission to the naval academy and outlining some experiments he is conducting in throwing dynamite preparatory to becoming useful as an officer in the navy.

At present Sweeney says he is able to throw 364 of an ounce of dynamite 150 yards with a Winchester rifle, cable range, 300 yards. With a large steel gun he says he believes he could throw 400 pounds of dynamite six miles, and asks if his achievements will not assist him in gaining admission to Annapolis.

Bonaparte replied that Sweeney's experiments were better adapted to taking him to a cemetery than to a naval academy.

Fort Worth, Tex., August 11.—It developed today that Mrs. P. A. Crenshaw, who committed suicide here Tuesday afternoon by taking strychnine and dying in horrible agony, was Nellie DeVaughan, one of the best-known acrobats and bareback riders in the world. The story came out today at the woman's funeral, when she was recognized by a reporter, who developed the story from her husband.

Kills Child and Sidelikes.

Cincinnati, August 11.—Thomas McKenna, a waiter at the Grand hotel, threw his 3-year-old child from the third story window of his home at 1000 John street today and then jumped from the window to the sidewalk below. The child was dead when picked up, while McKenna died on the way in the hospital. McKenna is believed to have been mentally deranged.

Little Car in Wreck.

Jackson, Tenn., Aug. 11.—Last night shortly before midnight a small wreck occurred in the Chester street wards of the Illinois Central railroad, when a car load of meat was turned completely over and a stock car, loaded with cattle, and a car load of ice were derailed. Aside from being badly shaken up the cattle were not hurt.

The war department at Washington has forwarded the sum of \$17,000 with which to pay the Kentucky troops for the time they spend at the camp or instruction.

During this month we will make special prices and terms on pianos and organs. It would be worth your time and save you money to see our pianos and get our prices before buying. D. H. Baldwin & company, 520 Broadway.

If some people should make it a rule to pay as they go they would never get far from home.

Sherrill-King Mill and Lumber Company

We are a new industry, organized March, 1906, to do a general saw mill business. We employ 50 skilled mechanics and laborers. We wholesale all of our product, but solicit your patronage in a retail way through Sherrill-Russell Lumber Company, to whom we have contracted to do their saw milling. We manufacture into lumber all the local woods and can cut anything you may want in timbers or boards from 4 feet to 44 feet long. We invite you to visit our new plant on Meyers street in Mechanicsburg.

E guess you know us. If not let's get acquainted. Our main office is located at Eleventh and Tennessee Streets; our electrical equipped planing mill Eleventh and Jones streets; our main warehouse at Eleventh and Tennessee streets; our unloading station Fourteenth and Tennessee streets; our saw mill Meyers street, Mechanicsburg; our yards and warehouses No. 2 at Fourteenth and Tennessee streets. At each of the above named places you will find a competent manager who will welcome and find pleasure in serving you. Consider: First, our equipment and ability to serve you; second, our stock, which is the largest and best assorted in the country; third, our prices, which are always in line. Then: If we cannot have your patronage, tell us our faults and we will correct them. Our planing mill and saw mill are running every day. We can furnish as cheap or as fine a class of all kind of building material as you can find in any city. Interior finish in any wood, detail work of any character given our special attention.

We respectfully solicit your patronage.

FRISCO SHOW

FEATURE OF LABOR CARNIVAL
AT WALLACE PARK.

Over Score of First-Class Attractions
Booked for Week—Labor
Day.

Paducah's labor carnival the first week in September promises to be the finest affair of the kind ever held in any city, and the promoters are positive that every exhibition will be unique and meritorious. Over a score of shows will be open at Wallace park, where the carnival is to be held, and five of them are engaged from a company with a backing of \$1,000,000.

Among the best is a reproduction of the San Francisco disaster. It is a mechanical show, not moving pictures, and is said to be great. These shows have only exhibited in New York and Chicago.

As evidence of the confidence the promoters have in the carnival, they have purchased \$700 worth of lithograph paper, which will be plastered all over western Kentucky, west Tennessee and southern Illinois.

On Labor Day the biggest parade ever held in this section will be given. Reports from surrounding cities tell of big delegations coming. It will be a Labor Day long to be remembered.

INJUNCTION OF THE COURT TO
CHARLES MURPHY.

Arrested By Patrolman Hurley at the
Station as a Suspect—Police
Court.

Charles Murphy was fined \$5 and costs in the police court this morning and given hours to secure work or the fine will "stick." It all came about through a remark Murphy's companion unknown, made as he left a saloon in the vicinity of the Illinois Central station this morning.

"Do you see them," was the interrogation Murphy's "pal" made as they left the saloon. The way in which it was spoken aroused the suspicions of Patrolman Aaron Hurley and he started for the two men. What went more towards confirming Policeman Hurley's suspicions that he had a criminal or two, was the fact that Murphy's "pal" ran, and the policeman was unable to outstrip him.

Murphy promised to secure work when presented in police court today and the judge suspended the fine of \$5 and costs for disorderly conduct to see if he does.

Other cases: James Taylor, breach of the peace and obtaining money under false pretenses, continued; Lulu Birch, harboring a vicious dog, continued; Frank Cotten, colored, disorderly conduct, \$5 and costs; Terry Malone, cruelty to animals, continued.

The New Education.

Unique among the educational institutions of the country is the Philadelphia Public Industrial Art school presided over by Director J. Liberty Tadd. Last year the school, which is a part of the regular public school system, was attended by 1,400 pupils. Technical World Magazine for August contains a most interesting and important interview with the di-

rector, describing the school and its unique methods.

"We begin with freehand drawing followed by creative drawing and painting," says Director Tadd. "Along with this go modeling in clay and wood-carving. The children work in all four departments in rotation, not in one alone; and the exercises are correlated with their other educational work. This gives dexterity to the hand and trains the eye in a great variety of ways, where no drawing alone would train it in but one way.

"As soon as the pupils acquire some manual dexterity and obedience of hand and eye, they are given the nuts of the various art styles—Greek, Moorish, Saracenic, etc.—and then combine these units in original and artistic arrangements. The child creates the design in his mind, and executes it on the board in five or ten minutes. The right hand draws the right hand side of the picture, while the left hand does the left side. All this is done in a very few minutes by clear, swinging touches, no line being repeated and the chain-

not even being raised from the board until one side of the design is finished. This implies a remarkable dexterity of the hand and its unconscious obedience to the mind, while the eye automatically guides the hand in executing its work gracefully and artistically. When you realize that few artists even can do this, nor even adults in the old-style wood-working manual training, you can better appreciate the working together of hand, eye, and mind that it involves.

NAPOLEON A BAD RIDER

Great General Not at Home on the Horse.

Frederic Masson declares that the Emperor Napoleon was a bad rider. Though frequently thrown from his horse, his head was always down on his chest and his legs were bent by his too short stirrups. Hence his back was always crooked when he was in the saddle, while his reins were never properly in hand.

It is on record that in attempting

at Boulogne to pull his horse suddenly to one side to avoid a headless child Napoleon bent clear over the animal's head and fell beside the child, Details by name—who became, by the way, father of the celebrated painter, Edouard Detaille. In Wurzburg Napoleon once had to pay 600 francs damage for riding down a woman.
